Cal OES SOUTHERN REGION

Avalanche Incident, Mammoth Mountain Inn, Mono County (Initial / Final)

On 03/03/18, the California State Warning Center (CSWC) was notified of an avalanche that occurred at the Mammoth Mountain Ski Resort, High Five Express (Chair 5) area. Ski resort personnel were on scene already conducting avalanche control work and skiing activity had been restricted. Avalanche debris flowed toward the bottom of the hill but crossed into an area that was open to the public.

- 3 people were partially impacted; 2 civilians and 1 ski resort employee were self rescued without injury.
- The area ski patrol conducted manual search operations with local search and rescue personnel with canines.
- The ski resort has shut down operations for the day with the intention of re-opening 03/04/18.
- The Cal OES Law Duty Officer (LDO) authorized a mission for 20 mountain rescuers from Mono and Inyo counties to assist in further search activities. (2018-LAW-45493)
- At 1708 hours, the LDO advised searchers have cleared the scene and no additional rescues or missing persons located.

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

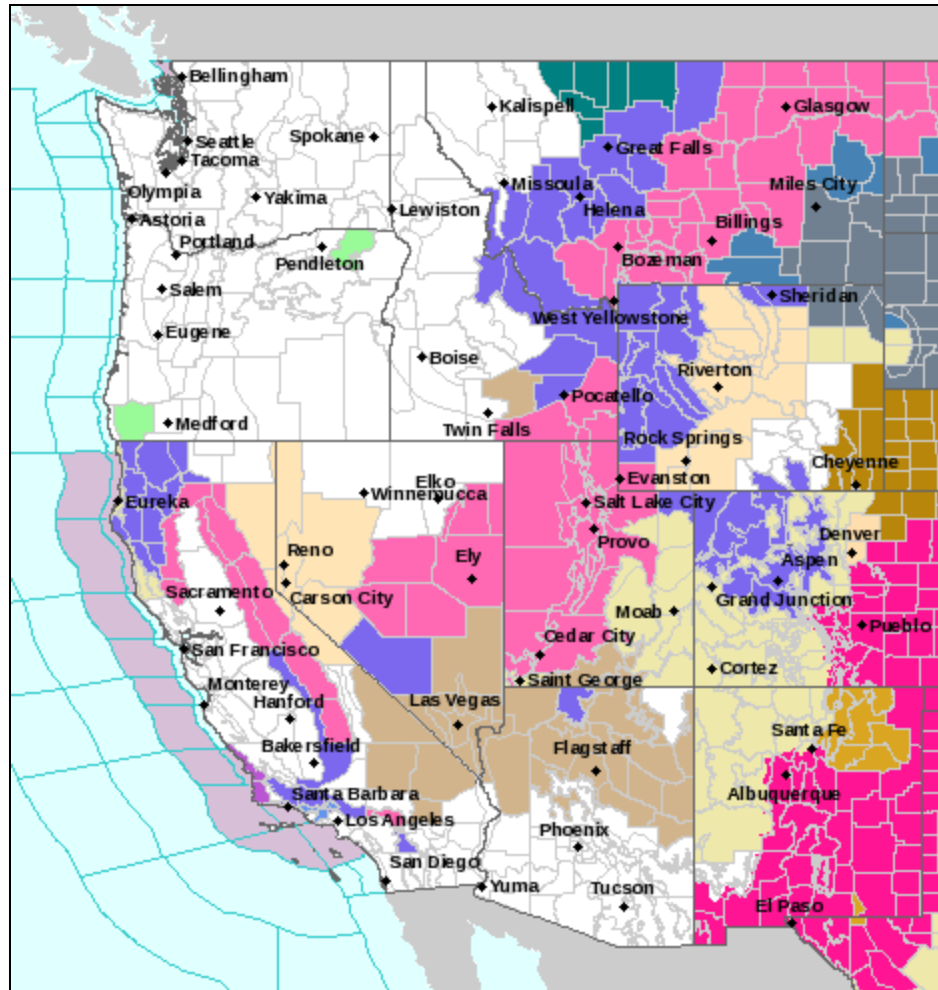

NORTHERN CALIFORNIA

Winter impacts will continue as numerous showers bring snow showers to the region through this evening. Snow levels start out between 1,000 and 1,500 feet this morning, rise to 2,000 to 2,500 feet this afternoon, then lowering again to around 1,500 feet late this evening. Most of the road snow impacts will be this morning, then again this evening as road and air temperatures fall near or below freezing. Little or no accumulation is expected late this morning and afternoon due to warming air and road temperatures. Gusty south winds are expected again in the Shasta Valley near Weed resulting in blowing snow and limited visibility at times.

SOUTHERN CALIFORNIA

A moist Pacific storm system will continue to bring showers across southwest California through this afternoon. Most areas will see additional light accumulations generally under 0.50 inch. Mountain snow is likely to occur with heaviest amounts of one foot or more above 7,000 feet in Ventura and Los Angeles Counties and lesser amounts down to 5,500 feet across most mountain ranges. Winter driving conditions will exist if traveling to resorts and across higher mountain passes. Drier and a little warmer Sunday.
